March 31, 2016  5:00-9:00pm

Single and Short Span Fixed Dental Implant Restorations in the Posterior:
A Comprehensive Approach

The basis for replacing single or multiple teeth in the posterior, with implants, is to restore function for the patient. This session will cover a comprehensive approach to posterior treatment. A treatment planning session will accompany this evidence based lecture.

At the end of the program, the participant should be able to:
- Understand the guidelines for temporization in the posterior region
- Learn about techniques and materials used for the fabrication of provisional restorations

June 2, 2016  5:00-9:00pm

Single and Short Span Dental Implant Restorations in the Aesthetic Zone: Provisional Restorations and Restorative Materials for Success

The aesthetic zone is known for its’ difficulties. In this zone, the process utilized for provisionalization and the restorative materials used, need to deliver optimal results. These tools used in combination with an understanding of the biologic principles that drive aesthetics, can lead to desired results. A treatment planning session will accompany this evidence based lecture.

At the end of the program, the participant should be able to:
- Describe the biologic principles that drive optimal results in the aesthetic zone
- Recognize and understand the diagnostic needs for anterior dental implant therapy

September 8, 2016  5:00-9:00pm

Full Arch Dental Implant Therapy: Fixed Implant Restorations vs. Overdentures

Full arch dental implant therapy is recommended to patients with a failing dentition. Patients can be candidates for full arch, immediate, provisional restorations while others are more appropriately treated with a staged approach.

At the end of the program, the participant should be able to:
- Learn how to treatment plan a patient with a failing dentition by determining what definitive restoration is best for the patient

November 10, 2016  5:00-9:00pm

Occlusion and Prevention of Complications

Occlusion plays a huge role in the health of dental restorations. A discussion surrounding the many theories on occlusion will be discussed along with how you can prevent complications.

At the end of the program, the participant should be able to:
- Develop a strategy to utilize new technologies for more predictable patient outcomes
- Learn how to maintain the restorations for less complications

Who Should Attend?
- Clinicians looking to provide better patient care

Location:
Fleming’s
639 E Shaw Ave, Fresno, CA 93710
559-222-5823

Program Includes:
4 – 4 hour sessions
16 hours of accreditation

Speakers

Steven LoCascio, DDS
Dr. LoCascio received his dental degree from Louisiana State University School of Dentistry in New Orleans and completed a General Practice Residency at the Medical Center of Louisiana, Charity Hospital. Registration/Cancellation/CE Credits
To provide each course participant with a focused and personalized educational experience, the number of registrants is limited and registration is accepted on a first-come, first-served basis. Full tuition payment must accompany all registration forms. Registrants unable to attend their course can obtain a refund (less a $50 administration fee) by notifying Lannea, in writing, no later than 14 days prior to the course date. Cancellations past that date may be subject to an additional penalty. Dental CE Solutions is not responsible for any reimbursement due to cancellation of an event. Reimbursement is in the sole responsibility of Fresno OM Surgery. Fresno OM Surgery reserves the right to cancel a course no later than 14 days prior to the course date.

**ADA CERP**
Dental CE Solutions is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Dental CE Solutions designates this activity for 16 continuing education credits. Continuing Education Credits awarded in the U.S. for participation in the CE activity may not apply towards license renewal in all states. It is the responsibility of each participant to verify the requirements of his/her state licensing board.
