

# THE ART OF COMPREHENSIVE IMPLANT TREATMENT

Hosted by

**Howard Goldstein, DMD, MS**

Periodontics and Dental Implants

Diplomate of the American Board of Periodontology

## PROGRAM DESCRIPTION:

When restoring dental implants, every clinician is faced with many choices. Do you temporize, what type of impression making technique do you use and what will the definitive restoration be, cement or screw-retained?

Deciding upon one or another can be implemented into the patients' treatment plan and varied as you move through the patient's care. This evening session will discuss the methods for accomplishing these steps along with the restorative options available and why you would choose one over another.

## PROGRAM OBJECTIVES:

At the completion of the program, participants should be able to understand:

- Options for Impression Procedures and Techniques
- Options for Cement vs. Screw Retained
- Reasoning for Temporization and Options Available

**DATE:** Wednesday, October 25, 2017
