\_\_\_\_\_

Signature: \_\_\_\_\_

All forms should be completed and returned to  
SPOMS **by April 25, 2019**. If you have any  
questions, please call 563-359-1601.

### Registration/Cancellation

Full tuition payment must accompany all registration forms. Registrants unable to attend their course can obtain a refund (less a \$50 administration fee) by notifying SPOMS in writing, no later than 30 days prior to the course date. Cancellations past that date may be subject to an additional penalty. Dental CE Solutions is not responsible for any reimbursement due to cancellation of an event. Reimbursement is in the sole responsibility of SPOMS. SPOMS reserves the right to cancel a course no later than 14 days prior to the course date.

Dental CE Solutions is an **ADA CERP** Continuing Education Recognition Program

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Dental CE Solutions designates this activity for 28 continuing education credits. Continuing Education Credits awarded in the U.S. for participation in the CE activity may not apply towards license renewal in all states. It is the responsibility of each participant to verify the requirements of his/her state licensing board.

## AN OVERVIEW

The purpose of this course is to improve the quality of care in your area by adding new clinical skills as they relate to treatment planning and dental implant therapy.

The sessions will be composed of a didactic core educational portion with a heavy emphasis on treatment planning. You will be asked to participate in the course by bringing cases to openly discuss and plan for care.

The course is designed to flow with these cases so that the different clinical skills needed can be covered on a case by case basis. I think you will find these exercises beneficial to your development as an implant restorative dentist.

Each session will begin with a theme. Topics that will be covered will include the following:

- Anterior Aesthetic Restorations and Tissue Training
- Immediate Provisional Restorations for Single and Full Arch Therapy
- Short Span Fixed Bridges
- Advanced Treatment Planning Concepts
- Digital Implant Therapy and Work Flow
- The Prevention and Management of Common and Uncommon Implant Related Complications
- The Graceful Transition to the Implant Supported Dentition

At the end of the program, the participant should be able to:

- Understand the relationship between implants and tissue training so that the best aesthetic result can be achieved
- Recognize what types of temporaries are available and choose the best one for a particular treatment plan
- Treatment planning simple to complex implant cases
- Be able to present simple and advanced treatment plans
- Understand a digital workflow
- Recognize potential complications and be able to avoid or treat them

## Speaker

**Gary A. Morris, DDS**

Dr. Morris completed his undergraduate studies at Indiana University in Bloomington, Indiana. He received his dental degree from the University of Illinois at Chicago and completed his residency in Prosthodontics at the UMKC College of Dentistry in Kansas City Missouri. He is an Adjunct Clinical Assistant Professor at Southern Illinois University, School of Dental Medicine. Prior to this appointment he was a Clinical Assistant Professor at the University of Illinois, College of Dentistry. He is a member of the ACP, AO, ADA, ISDS, CDS and is the immediate past president the Chicago Academy of Dental Research. Dr. Morris is vice president of the Illinois section of the ACP. Dr. Morris has lectured both nationally and internationally and has authored or co-authored numerous articles related to dental implants. Dr. Morris maintains a private practice, limited to prosthodontics and restorative dentistry, in Buffalo Grove, Illinois. Dr. Morris has a financial relationship with Dental CE Solutions, Zimmer Biomet and Southern Implants for speaking engagements.
