

## REGISTRATION

Enclosed is my payment of \$1,400.00 to confirm my attendance.

Name: \_\_\_\_\_

Address: \_\_\_\_\_

Email: \_\_\_\_\_

Phone #: \_\_\_\_\_

Type of Payment (MC, Visa, AmEx, Check)

If paying by check, please make it payable to:  
Southwest OMS.

CC#: \_\_\_\_\_

Expiration Date: \_\_\_\_\_

Name as it appears on the card: \_\_\_\_\_

Signature: \_\_\_\_\_

All forms should be completed and returned to your Host by February 20, 2019 to secure your participation. For questions, please contact Valerie Harris at [vharrissworlmax@yahoo.com](mailto:vharrissworlmax@yahoo.com) or call 229.878.3610 or 229.869.9510.

### Registration/Cancellation

Full tuition payment must accompany all registration forms. Registrants unable to attend need to contact SWOMS to determine eligibility for a refund. Dental CE Solutions is not responsible for any reimbursement due to cancellation of an event. Reimbursement is the sole responsibility of SWOMS. SWOMS reserves the right to cancel a course no later than 14 days prior to the course date.

**ADA CERP\***

Dental CE Solutions is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Dental CE Solutions designates this activity for 21 continuing education credits. Continuing Education Credits awarded in the U.S. for participation in the CE activity may not apply towards license renewal in all states. It is the responsibility of each participant to verify the requirements of his/her state licensing board.

## Program Details

**Friday, March 8, 2019**

### Dental Pathology

Speaker: Rafik Abdelsayed, DDS, MS

Oral soft tissue disease may present in a wide spectrum of clinical presentations with significant clinical overlapping between benign, precancerous and cancerous mucosal lesions.

This may pose a challenge to clinicians to diagnose oral cancerous lesions in a timely fashion. This course presents the most common of such cases, their differential diagnosis, and approaches by which definitive diagnosis is reached.

The etiology, pathogenesis and clinical behavior will be discussed along with radiographic evidence of these lesions.

This session is dedicated to all clinicians.

**Friday, May 3, 2019**

### Hierarchy of Space Considerations in Implant Treatment Planning

Speaker: David Moed, DDS

Comprehensive treatment plans are designed to educate the patient on the necessary procedures and the steps needed to deliver a successful restorative result. When considering implant placement in your treatment plan, there are additional considerations, that need to be taken into account. The space consideration for an implant is a factor as the biologic width must be evaluated and factored in. This session will take you through the steps for space consideration when considering implant placement and why it is crucial to the restoring clinician for the definitive restorations.

**Friday, October 11, 2019**

### Occlusal Considerations in Delivery of Implant Restorations

Speaker: David Moed, DDS

Occlusion is a controversial subject in dentistry on its own, add dental implants into the mix, and it becomes quite complicated. Teeth and dental implants differ in many ways. The periodontal ligament is absent around implants, teeth drift and shift with craniofacial change while dental implants remain stationary. Strategies must be in place to accommodate these differences.

This session will discuss the differences between occlusion with a natural dentition vs. implants and what you need to have in place to have a successful restoration.

**Program Location:**

**Hilton Garden Inn  
Tifton, GA**

**Program Time: 8:30am-4pm**

**Come Join Us!  
\$1,400.00  
21 Credits  
Space is Limited!**
