Registration/Cancellation/CE Credits

Full tuition payment must accompany all registration forms. Registrants unable to attend their course can obtain a refund by notifying the host, no later than 14 days prior to the course date. Cancellations past that date may be subject to an additional penalty. Dental CE Solutions is not responsible for any reimbursement due to cancellation of an event. Reimbursement is in the sole responsibility of SEOS. SEOS reserves the right to cancel a course no later than 14 days prior to the course date. **ADA CERP***

Dental CE Solutions is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Dental CE Solutions designates this activity for 28 continuing education credits. Continuing Education Credits awarded in the U.S. for participation in the CE activity may not apply towards license renewal in all states. It is the responsibility of each participant to verify the requirements of his/her state licensing.

Invites You To A

Peak Performance Restorative Series

February 1, 2019
Ms. Anne Oldenburg
& Ms. Linda Hay

March 1, 2019
Ed Schlissel, DDS

May 3, 2019
Paulino Castellon, DDS

September 13, 2019
Jay Smith, DDS

Session 1 **February 1, 2019**

Legalities in the Dental Practice

For better patient care, clinicians need to ensure they protect their patients and themselves. As legal laws change, clinicians need to keep up with those changes and understand that by protecting themselves, they are doing what is best for their patients.

- Discuss cases that can affect the way we practice
- Understand why patient protection is paramount
- Demonstrate that keeping up with legal changes is crucial
- Bring your legal questions so that they can be discussed in a comfortable environment

Speakers: Anne Oldenburg & Linda Hay

Session 2 **March 1, 2019**

Digital Dentistry

Digital technologies are streamlining the dental implant workflow, making the simple delivery of restorations a reality.

Clinicians can offer precise, guided, treatment planning, implant placement, digital impressions and CAD/CAM working casts, abutments and restorations.

These technologies allow the dental team to deliver expedient, cost effective, and predictable therapies to our patients.

- Discuss the benefits to the practice and patient
- Realize that a digital impression can reduce chairtime
- Provide predictable, easy restorations for their patients

This session is geared towards the restorative clinician and their staff.

Speaker: Ed Schlissel, DDS

Session 3 **May 3, 2019**

Treatment of the Edentulous Arch

Many options are available to the clinician to provide full arch dental implant therapy to patients with a failing dentition. Some patients are candidates for full arch, immediate, provisional restorations while others are more appropriately treated with a staged approach.

- Learn how to treatment plan a patient with a failing dentition by determining the best course of action
- Understand techniques and materials used for the fabrication of provisional restorations
- Decide which restorative materials should be used in the final restorations

Speaker: Paulino Castellon, DDS

Session 4 **September 13, 2019**

Enhanced Aesthetics with Crowns and Veneers

Cosmetic dentistry has evolved into an integral element of contemporary dental practice. We must develop the ability to evaluate existing cosmetic deficiencies and recognize patient expectations to design proper procedure for smile improvement. We will outline restorative techniques from diagnosis to completion and discuss provisional techniques, longevity, and cementation recommendations.

- Evaluate patient's desires with regard to smile enhancement
- Deciding between a crown or a veneer
- Preparation techniques
- Deciding which material is best
- Cementation protocols
- Maintaining the restorations

Speaker: Jay Smith, DDS

Speakers:

Anne Oldenburg, Esq. & Linda Hay, Esq.

Ms. Oldenburg & Ms. Hay are partners with the law firm of HeplerBroom, LLC. Ms. Oldenburg focuses her practice on the defense of healthcare professionals, including all aspects of civil litigation including appeals. Ms. Hay actively defends professional liability cases. Both attorneys present on healthcare risks and are published.

Ed Schlissel, DDS

Dr. Schlissel received his dental degree from State University of NY at Buffalo, School of Dentistry in Buffalo, NY and his Materials Science degree from SUNY at Stony Brook, in Stony Brook, NY. Dr. Schlissel is Assist. Clinical Professor of Surgery in the Division of OMS, at Emory School of Medicine in Atlanta, GA and Professor Emeritus of General Dentistry, School of Dental Medicine at Stony Brook in NY. He maintains a private practice in Marietta, GA.

Paulino Castellon, DDS

Dr. Castellon received his dental degree from the University of Guadalajara, Guadalajara, Mexico, and attained his Certificate in Prosthodontics at the Louisiana State University School of Dentistry where he completed a Fellowship in Aesthetic and Implant Dentistry. He maintains a private practice limited to Prosthodontics in Dallas, TX.

Jay Smith, DDS

Dr. Smith earned his Bachelor of Science degree in biology at Furman University in Greenville, SC and received his dental degree and completed his residency in fixed and removable prosthodontics at Emory University in Atlanta, GA. He maintains a private practice, limited to prosthodontics, in Atlanta, GA.
