

The Value of Using Principle Based Planning Systems and Algorithms for Dental Implants

Session 1: Friday, May 17, 2019

Time: 8am

Achieving Predictable Treatment Outcomes and Enhanced Patient Satisfaction with Dental Implants Using Proven Diagnostic Planning Protocols and Case Design Strategies: Part 1

At the completion of this session, participants should be able to:

- 1) Describe an algorithm that will help in the diagnosis and treatment planning of the edentulous patient.
- 2) Understand the critical differences between implant assisted and supported designs.
- 3) Determine the proper prosthetic design that is most appropriate for each patient?
- 4) Recognize the differences in the restorative vertical space needed for various prosthetic designs.
- 5) Detail how to restoratively begin any rehabilitation case.

Session 2: Friday, October 25, 2019

Time: 8am

Achieving Predictable Treatment Outcomes and Enhanced Patient Satisfaction with Dental Implants Using Proven Diagnostic Planning Protocols and Case Design Strategies: Part 2

At the completion of this session, participants should be able to:

- 1) Identify patients that may be predisposed to post-treatment problems and complications.
- 2) Develop a strategy to predictably control occlusal forces on dental implants.
- 3) Establish a protocol for determining when to splint dental implants to adjacent implants and/or natural teeth.
- 4) Select restorative materials that are most appropriate for each individual case.
- 5) Describe some of the problems that can occur in implant dentistry as well as how to predictably address these complications.

Speaker: Steven LoCascio, DDS

Dr. LoCascio received his dental degree from Louisiana State University and completed a General Practice Residency at the Medical Center of Louisiana. He earned specialty certificates in Prosthodontics and Maxillofacial Prosthetics from LSU and is a member of the American College of Prosthodontists, the AO, the American College of Dentists, the ADA, the TDA and the Second District Dental Society. Dr. LoCascio is a Clinical Associate Professor in the Department of Oral and Maxillofacial Surgery at the University of Tennessee Medical Center in Knoxville, TN and a Clinical Assistant Professor in the Department of Prosthodontics at Louisiana State University School of Dentistry in New Orleans, LA. In addition to his university teaching responsibilities, Dr. LoCascio is and educational mentor to many clinicians and participates in the ongoing training of dentists nationwide. Dr. LoCascio maintains a full-time private practice, limited to prosthodontics and maxillofacial prosthetics, in Knoxville, Tennessee. Dr. LoCascio has a relationship with Dental CE Solutions, Southern and Zimmer Biomet for speaking engagements.

8:00 – 8:30 Registration & Continental Breakfast

8:30 – 12:00 Discussion

12:00 – 1:00 Lunch provided by SunRidge Oral Surgery

1:00 – 4:00 Discussion and Treatment Planning Cases

Cancellation Policy

Dental CE Solutions is not responsible for any reimbursement due to cancellation of an event. Reimbursement and cancellations are the sole responsibility of SunRidge Oral Surgery. This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between Dental CE Solutions & SunRidge Oral Surgery.

ADA CERP®

Dental CE Solutions is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Dental CE Solutions designates this activity for 6 continuing education credits. Continuing Education Credits awarded in the U.S. for participation in the CE activity may not apply towards license renewal in all states. It is the responsibility of each participant to verify the requirements of his/her state licensing board.
