## Women in Dentistry

Southwest Oral and Maxillofacial Surgery would like to invite you to attend their series for Women in Dentistry.

This 3-part series is dedicated to restorative, women clinicians who want to grow and share their practices with other professionals. Please come join us on:

Friday, February 1, 2019

Friday, May 17, 2019

Friday, September 20, 2019

Topics to be discussed include:

- How to work effectively with your referrals – interoffice communication
- Why do you need to track your production numbers and what does it tell you about your practice
- The Single Implant, Impression Making and aesthetics
- What constitutes the Emergency Implant
- Comprehensive Treatment Planning
- Occlusion
- Why do GP Place implants and what are the challenges associated with that procedure – Is the risk factor worth it?

We will ask that all attendees have cases for presentation. A format will be provided so that we can discuss cases you need to treatment plan so that you can present the treatment to your patient.

This series will be mentored by Dr. Ushma Patel. Dr. Patel has a thriving restorative practice outside Atlanta. She wants to be able to share ideas on technology, staffing and referrals.

Come join us!

CE: 7 CE per session (ADA CERP)

Location: Doublegate Country Club Albany, GA

Tuition: \$1,500

To Register or for more information, please contact Valerie at: 229.869.9510
