Signature: _____

RSVP by November 1, 2019 by contacting Taylor Owen - Patient Care Coordinator @ 843-767-3310 or via email @ pcc@hehroralsurgery.com

Registration/Cancellation/CE Credits
Full tuition payment must accompany all registrations. Registrants unable to attend their course can obtain a refund by notifying the host, no later than 14 days prior. Cancellations past that date may be subject to an additional penalty. Dental CE Solutions is not responsible for any reimbursement due to cancellation of an event. Reimbursement is in the sole responsibility of Dr. Jason Hehr. Dr. Hehr reserves the right to cancel a course no later than 14 days prior to the course date. Dental CE Solutions is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Dental CE Solutions designates this activity for x32 continuing education credits. Continuing Education Credits awarded in the U.S. for participation in the CE activity may not apply towards license renewal in all states. It is the responsibility of each participant to verify the requirements of his/her state licensing.

Advanced Peak Performance Restorative Series

Hosted By:

Gary A. Morris, DDS

Dr. Morris completed his undergraduate studies at Indiana University in Bloomington, Indiana. He received his dental degree from the University of Illinois at Chicago and completed his residency in Prosthodontics at the UMKC College of Dentistry in Kansas City Missouri. He is an Adjunct Clinical Assistant Professor at Southern Illinois University, School of Dental Medicine. Prior to this appointment he was a Clinical Assistant Professor at the University of Illinois, College of Dentistry. He is a member of the ACP, AO, ADA, ISDS, CDS and is the immediate past president the Chicago Academy of Dental Research. Dr. Morris is vice president of the Illinois section of the ACP. Dr. Morris has lectured both nationally and internationally and has authored or co-authored numerous articles related to dental implants. Dr. Morris maintains a private practice, limited to prosthodontics and restorative dentistry, in Buffalo Grove, Illinois. Dr. Morris has a financial relationship with Dental CE Solutions, Zimmer Biomet and Southern.

Program Location:
Charleston Harbor Resort & Marina

Program Time: 8am—4pm

Tuition: \$2,500

- Includes:**
- Breakfast and Lunch
 - 32 CEU's (DCS)
 - 12 CEU's (ZB)
 - Treatment Planning at all sessions so plan to bring cases!

Plan on having cases to present at the first session!

This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between Dental CE Solutions & Dr. Hehr.

SESSION ONE 11/22/2019

Immediate Temporization of Dental Implants

Proper diagnosis and treatment planning is essential for success. Topics such as pre-surgical planning, abutment and material selection, fabrication of provisional restorations, tissue sculpting and immediate provisional restoration will be covered in this course.

- To recognize the challenges with implants as it relates to aesthetics, provisionalization and tissue
- To recognize and understand complications for the dental implant patient
- To learn how to maintain a patient after dental implant therapy from an occlusion and hygiene standpoint
- To learn about techniques and materials used

SESSION TWO 4/24/2020

The Transition from Teeth to Dental Implants: Treatment planning and Treating the Edentulous or soon-to-be Edentulous Patients

Tooth loss can be devastating as it signifies a change in your patients' oral health. Transitioning the patient from a diseased dentition to a healthy one, can be achieved through diligent treatment planning and a staged approach.

- To understand how to stage the transition from a natural dentition to dental implants
- To recognize patients concerns and how to alleviate them through communication
- To understand the importance of comprehensive treatment planning

SESSION THREE 9/11/2020

Anterior Aesthetics: Tissue Training, Immediate Loading vs. Delayed Protocols and Restorative Material Choices

Aesthetic dentistry is a rapidly changing discipline. As more anterior teeth are being replaced with dental implants, factors such as tissue management, loading and materials need to be considered. Proper diagnosis and treatment planning is essential for success.

- To recognize the diagnostic needs for anterior dental implant therapy
- To understand the biologic principals of implant mapping and decision making
- To understand which provisional restorations are most appropriate

SESSION FOUR 11/6/2020

Occlusion, Delivery Procedures and Management of Complications

Occlusion is a controversial subject in dentistry on its own, add dental implants into the mix and it becomes quite complicated. Teeth and dental implants differ in many ways. The periodontal ligament is absent around implants, teeth drift and shift with craniofacial change while dental implants remain stationary. Strategies must be in place to accommodate these differences.

- To recognize and understand occlusion as it relates to the dental implant patient
- To learn how to prevent complications related to faulty occlusion
- To learn how to maintain a patient after dental implant therapy is complete
- Step by step Final Delivery Procedures

SESSION FIVE Date: TBD

Hands on session !

LOCATION: Zimmer Biomet Institute, Parsippany, NJ

More Information Coming Soon. CEU's: 12

Provided by Zimmer Biomet
