

A note from your hosts:

Come join us in exploring what progressive dentistry has to offer. These 4 sessions will be lead by Dr. Bruce Ouellette and he is requiring everyone to bring cases to treatment plan for sessions 2-4. This will encourage interaction and discussion. We look forward to seeing you there!

*The Doctors and Staff at
Oral Surgery of Tidewater*

Speaker:
Bruce R. Ouellette, DDS

Dr. Ouellette received his dental degree from the University of Maryland in Baltimore, Maryland. His professional affiliations include the American Academy of Cosmetic Dentistry, American Dental Association, Florida Academy of Cosmetic Dentistry, American Equilibration Society and the Florida Dental Association. Dr. Ouellette is a former faculty member at the Dawson Academy For Advanced Dental Study in St. Petersburg, Florida, a former Clinical Instructor at Palm Beach State College and Visiting Faculty for advanced continuing dental education at Baylor College of Dentistry in Dallas, Texas. Dr. Ouellette maintains a full-time private practice focusing on occlusion, aesthetics, implant reconstruction and TMJ in West Palm Beach, Florida. Dr. Ouellette has a financial relationship with Zimmer Biomet for speaking engagements.

Session #1 October 8, 2021

The Patient Evaluation Appointment

The initial contact and interaction with any patient is crucial in developing an effective doctor/patient relationship. The entire dental TEAM must ensure that patients are properly educated and informed. This session will cover patient consultations from the first phone call to the initial patient visit through the treatment planning consultation and referral to the surgical specialist.

- Identifying Dental Implant Candidates
- Defining the Roles and Responsibilities of all Team Members
- Crown & Bridge Dentistry vs. Implants
- Consulting Effectively with Patients to Achieve Case Acceptance
- The Case Work-Up

*This first session focuses on TEAM building. Staff is strongly encouraged to attend this session!

Session #2 November 19, 2021

Conducting Comprehensive Treatment Plans

Proper treatment planning is the first vital step in achieving predictable outcomes. This session will focus on the diagnosis and planning of multiple cases worked-up by the participants of the course. Cases from all participants will be discussed in detail.

- Diagnosis and Treatment of the Partially and Totally Edentulous Patient
- Understanding the Biologic Principles Involved in Achieving Aesthetic Results
- Step by Step Sequencing of Various Clinical Cases Implant Mapping and Surgical Considerations Treatment Planning Participant Cases.

Registration/Cancellation/CE Credits

Registrants unable to attend their course are asked to notify the host, no later than 14 days prior to the course date. Dental CE Solutions is not responsible for any reimbursement due to cancellation of an event. Reimbursement is in the sole responsibility of OS of Tidewater. The Hosts reserve the right to cancel a course or change the venue no later than 14 days prior to the course date. Dental CE Solutions is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Dental CE Solutions designates this activity for 28 continuing education credits. Continuing Education Credits awarded in the U.S. for participation in the CE activity may not apply towards license renewal in all states. It is the responsibility of each participant to verify the requirements of his/her state licensing. This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between Dental CE Solutions & OS of Tidewater.

Session #3 March 18, 2022

Development of Implant Prosthetics

When restoring dental implants, every clinician is faced with many choices. This session will discuss the restorative options available and why you would choose one over another.

- Restorative Procedures for Multiple Implant Cases
- Impression Procedures and Techniques
- Cement vs. Screw Retained Options
- Abutment Selection in Implant Dentistry

*Case Updates and Treatment Planning Additional Cases

Session #4 May 13, 2022

Occlusion and Potential Complications

Occlusal schemes, delivery procedures, force control, and material selection for the final restoration may be just as important, for long term treatment success, as the steps taken in the planning process. This session will discuss the important factors involved with finalizing implant cases.

- Occlusion in Implant Dentistry
- Delivery Procedures
- Problems and Complications

*Case Updates and Treatment Planning Additional Cases
