

Treatment Planning for the Ultimate Esthetic Outcome

SOUTHWEST
Oral and Maxillofacial
SURGERY, LLC

Technology in dentistry has reached a point where we can predictably acquire our patients' clinical data using multiple digital and analog tools to improve our treatment plan abilities, our communication, treatment acceptance, and our patients' esthetic outcome.

During this session, we will discuss different applications and workflows of digital and analog dentistry that is applicable to everyday practice.

OBJECTIVES

- Identify the important factors that influence the esthetics results around teeth and implants.
- Gain a better understanding of integrating the digital equipment with our analog methods in the daily workflow.
- Improve patient communication and increase treatment acceptance.

This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between Dental CE and Southwest Oral & Maxillofacial Surgery (SWOMS). If tuition was collected, Dental CE Solutions is not responsible for any reimbursement due to cancellation of an event. Reimbursement is the sole responsibility of SWOMS. SWOMS reserves the right to cancel a course no later than 14 days prior to the course date. Dental CE Solutions is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Dental CE Solutions designates each activity for 4 continuing education credits. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for continuing Education Provider Recognition at CCEPR.ADA.org
