

Billy Goddard

Billy Goddard is a Certified Dental Technician in Kingsport, Tennessee. Billy became the president of Premier Dental Arts in 2018. By utilizing the latest technology and exceeding industry standards, he has helped Premier Dental Arts become Northeast Tennessee's premier dental lab. Billy specializes in implant dentistry and complex treatment planning as well as immediate implant loading from full arch restorations to single unit restorations. Billy Goddard is a member of the National Association of Dental Laboratories, an affiliate member of American Academy of Cosmetic Dentistry, and The Pankey Institute. He has lectured nationally for multiple organizations.

Dr. Michael Foster

Dr. Michael Foster graduated with high distinction from the University of Kentucky College of Dentistry. He then completed 4 years of advanced specialty training in Oral and Maxillofacial Surgery at the University of Tennessee in Knoxville, Tennessee. Dr. Foster is board certified with the American Board of Oral and Maxillofacial Surgery. He practices full scope Oral and Maxillofacial Surgery including oral rehabilitation with dental implants, advanced bone grafting and reconstruction techniques, wisdom teeth removal, adult and pediatric sedation, oral pathology, facial trauma, and corrective jaw surgery. He has a special interest in wisdom teeth removal as well as dental extractions with immediate implant placement and completed additional advanced training in zygomatic implants.

Offering unique perspectives from both the surgical operating room to the restorative possibilities in the laboratory, Dr. Foster (Associated Oral and Implant Surgeons) and Billy Goddard (President of Premier Dental Arts) combine their expertise in this collaborative lecture to discuss the advantages of utilizing the latest technology in all phases of dental implants: Planning, Surgery, and Restorative. Planning and Surgery discussions will include RealGuide, TSX Implants, photogrammetry/digital dentistry, and full arch solutions as well as case study presentations. Restorative discussions will revolve around encode, digital workflow, considerations when selecting a partner laboratory, and resulting outcomes. The goal of this collaboration is to help referrals streamline their practice, enhance efficiency, increase revenue, and deliver exceptional patient care.

Program Objectives:

- ☒ Understand the role and advantages of using RealGuide and TSX Implants
- ☒ Understand how photogrammetry and digital dentistry saves time, reduces labor, and increases profit margins
- ☒ Discuss the significance of using encode and digital workflow in the restorative phase of implants
- ☒ Recognize the availability of full arch restorative solutions

This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between Dental CE and Associated Oral & Implant Surgeons. If tuition was collected, Dental CE Solutions is not responsible for any reimbursement due to cancellation of an event. Reimbursement is the sole responsibility of Associated Oral & Implant Surgeons. Associated Oral & Implant Surgeons reserves the right to cancel a course no later than 14 days prior to the course date. Dental CE Solutions is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Dental CE Solutions designates each activity for 4 continuing education credits. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for continuing Education Provider Recognition at CCEPR.ADA.org
