

AESTHETIC EMERGENCE & RESTORATIVE WORKFLOW

HOSTED BY JONATHAN BONNET, DDS, MD
BATTLE CREEK ORAL & MAXILLOFACIAL SURGERY

Explore the importance of treatment planning and guided implant surgery around the desired final restoration and not simply available bone. Attendees will review how implant position, depth, angulation, and emergence influence the final crown and surrounding soft tissue. The discussion will also highlight advances in the tissue former design and how modern customized approaches can help shape the preserve the emergence profile, improve restoration efficiency, and create a more predictable transition from surgery to the final restoration.

This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between Dental CE and Battle Creek Oral & Maxillofacial Surgery. If tuition was collected, Dental CE Solutions is not responsible for any reimbursement due to cancellation of an event. Reimbursement is the sole responsibility of Battle Creek OMS. Battle Creek OMS reserves the right to cancel a course no later than 14 days prior to the course date. Dental CE Solutions is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Dental CE Solutions designates each activity for 2 continuing education credits. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for continuing Education Provider Recognition at CCEPR.ADA.org

Dr Jonathan Bonnet has been the owner/operator of Battle Creek Oral & Maxillofacial Surgery for 10 years. He earned his medical doctorate from Wayne State School of Medicine before completing his residency in Oral and Maxillofacial Surgery at the Detroit Medical Center. Dr Bonnet is committed to excellence for oral reconstruction and is a speaker for multiple companies associated with oral reconstruction.

Special Guest: Armand Jusuf is the founder of S3 Simple Smile Solutions and a dental laboratory professional with nearly two decades of experience supporting implant and full-arch dentistry. He has helped clinicians plan, design, and deliver thousands of full-arch cases, with focus on simplifying complex workflows and making advanced treatment more predictable and approachable. His practical teaching style emphasizes efficiency, repeatability, and solutions that work in the real world.

By the end of this course, participants will understand:

- The benefits of custom tissue formers for emergence profile aesthetic outcomes
- The benefits of digital workflow
- The benefits of inter-specialty cooperation leading to better outcomes
